

Challenge 1

Success:

https://github.com/cbattieste-godaddy/anything/runs/6780640456?check_suite_focus=true

The screenshot shows a GitHub Actions workflow run for a job named 'build'. The job status is 'succeeded yesterday in 10s'. The workflow steps are:

- Set up job (2s)
- Run actions/checkout@v3 (6s)
- Run python tests (0s)
 - Run python3 astest.py (0s)
 - ..
 - Ran 2 tests in 0.000s
 - OK
- ls -al (0s)
- Post Run actions/checkout@v3 (0s)
- Complete job (0s)

The 'Run python tests' step is expanded, showing the output of the test script. The output indicates that 2 tests were run successfully in 0.000s, resulting in 'OK'.

Fail:

https://github.com/cbattieste-godaddy/anything/runs/6780596330?check_suite_focus=true

The screenshot shows a GitHub Actions workflow run for a job named 'build'. The job status is 'failed yesterday in 8s'. The workflow steps are:

- Set up job (1s)
- Run actions/checkout@v3 (5s)
- Run python tests (0s)
 - Run python3 astest.py (0s)
 - FF
 - FAIL: test_add (__main__.TestBasicMethods)
 - Traceback (most recent call last):
 - File "astest.py", line 8, in test_add
 - self.assertEqual(add(2,3), 6)
 - AssertionError: 5 != 6
 - FAIL: test_subtract (__main__.TestBasicMethods)
 - Traceback (most recent call last):
 - File "astest.py", line 11, in test_subtract
 - self.assertEqual(subtract(5,3), 3)
 - AssertionError: 2 != 3
 - Ran 2 tests in 0.000s
 - FAILED (failures=2)
 - Error: Process completed with exit code 1.
- ls -al (0s)
- Post Run actions/checkout@v3 (0s)
- Complete job (0s)

The 'Run python tests' step is expanded, showing the output of the test script. The output indicates that 2 tests were run, both failing, resulting in 'FAILED (failures=2)'. The error message states: 'Error: Process completed with exit code 1.'
